

MELTERS

SMALL Series *MCFS*

Removable melters, combined with MCMP_01 and MCBF_01 model machines.

MODELS

MCFS_2.5 capacity 2.5 lt

MCFS_4 capacity 4 lt

FEATURES

- Heating with electric resistances divided into independent zones
- Integrated management with the operator panel machine
- Support for direct attachment to the dosing head
- Sealed lid, with fastening for bulk loading
- Manual drain valve for emptying
- Motorized paddle stirrer with adjustable speed

We create models with different capacities for specific customer needs.

MEDIUM Series *MCFM*

Stand alone melting tanks.

MODELS

MCFM_20 capacity 20 lt

MCFM_35 capacity 35 lt

MCFM_50 capacity 50 lt

FEATURES

- Completely made of stainless steel
- Touch screen control and PLC
- Heating by means of electric heaters divided into independent zones, with adjustable controlled temperature
- Heated bulk transfer pump with adjustable temperature
- Heated connection pipe with settable temperature
- Variable speed agitator

DESIGN BULKology SETUP

RESEARCH & INNOVATION

Through its network of collaborations with high-level strategic partners in the various sectors of the cosmetic world, Rigam Engineering can offer a full service, smart and integrated, based on the excellence of MADE IN ITALY.

Our deep knowledge of the needs in the sector combined with a specific know-how of products and processes allows us to support customers at every stage of collaboration: from consultancy to after-sales service.

- > DESIGN and FEASIBILITY
- > BULKology... from formulation to quality
- > PRODUCT-PACKAGING INTERACTION STUDY
- > TESTS and SETUP OF MACHINES AND EQUIPMENT

For cosmetics industry

From Design to Implementation

Rigam Engineering designs and manufactures machines and systems for the cosmetic, pharmaceutical and food industries.

Rigam Engineering machines, melting tanks and molds find application for **all poured products from bulk, from fusion to latest generation packaging**.

The technological heart of Rigam Engineering is in its exclusive patents for the development of 4.0 solutions oriented to the digitalization of processes and improvement of production performance.

Each Rigam Engineering project is born from a highly evolved **digital development**, with the support of **tools and programs that allow the customer to follow in the detail** the customization of the smallest component.

Service

After Sales Service is a fundamental service that tests the seriousness of a manufacturer and that requires commitment and competence.

Rigam Engineering offers a preventive and corrective maintenance service, technical assistance which includes both the systematic control of machines at customers factories and the remote support carried out by constantly trained technical personnel.
